PROFESSIONAL SUMMARY

Detail-oriented Software Developer with hands-on experience in building data-driven applications, responsive web interfaces, and database solutions. Strong in Python (OOP), SQL queries, and problem-solving, with exposure to API integration and system design. Currently expanding skills in modern web frameworks, backend technologies, and AI tools for building intelligent applications.

EXPERIENCE

Python Full Stack Developer Intern | QSpiders Jan 2026 – May 2026

- Gained hands-on experience in Python, SQL, HTML, and CSS through full-stack development training.
- Applied OOP concepts in Python to build modular and reusable programs.
- Practiced SQL queries and joins for efficient data handling.
- Developed small applications integrating frontend and backend concepts.
- Solved 20+ coding problems, improving debugging and logical thinking

Full Stack Development Intern | Growfinix Aug 2025 – Sept 2025

- Developed frontend and backend components using React.js, Node.js, Express.js, and MongoDB.
- Built responsive web applications including portfolio website, feedback form, and to-do list.
- Implemented REST APIs and database integration for efficient data handling.

Data Visualization: Empowering Business with Effective Insights | Tata Forage Virtual Internship Sep 2025

- Built interactive dashboards using Power BI and Tableau.
- Transformed datasets into actionable insights for decision-making.

EDUCATION

Jain Institute of Technology, Davanagere May 2026

Information Science and Engineering – 7.8CGPA

J M J PU College, Sirsi May 2022

PCMB – 82.16%

Morarji Desai Residential School, Begur Shikaripura June 2020

Percentile – 75.84%

SKILLS

➤ Technical Skills:

- Programming: Python (OOP, Exception Handling, File Handling), JavaScript (Basics), SQL
- Web Technologies: HTML, CSS, Responsive Web Design
- Databases: MySQL (Queries, Joins), MongoDB (Basics)
- Tools: GitHub, VS Code, Power BI, Tableau
- Concepts: SDLC, Agile, Debugging, Data Structures
- Web Services: REST, API Integration

➤ Soft Skills:

- Team collaboration & communication | Time management | Learner Mindset | Problem-solving ability | Adaptability

PROJECTS

➤ Maintenance Ticket Management System / [GitHub Repo](#) Dec 2024

Technologies: PHP, MySQL, HTML, CSS, JavaScript, Bootstrap, Chart.js

- Developed a full-stack web-based maintenance ticket management system with user/admin authentication.
- Implemented ticket creation, status tracking, file upload, dashboard analytics, and CRUD operations using PHP and MySQL.
- Designed a responsive UI using Bootstrap and hosted the project on GitHub.

- Impact: Reduced manual tracking effort and improved issue resolution efficiency.

➤ **AI Assistance Healthcare Management System | Major Project / [GitHub Repo](#)**

Nov 2025

Technologies: HTML, CSS, JavaScript, MongoDB, REST Concepts, AI Integration

- Designed a healthcare platform integrating appointments, pharmacy, and blood bank services.
- Contributed to frontend development and data handling, improving usability.
- Implemented AI chatbot concept for real-time assistance.
- Designed workflows to reduce service delays and improve accessibility
- Impact: Consolidated multiple healthcare services into a single system, improving user experience.

➤ **Personal Portfolio / [GitHub Repo](#) / [Live](#)**

Aug 2025

Technologies: HTML, CSS, JavaScript

- Designed and deployed a responsive portfolio website to showcase projects and technical skills.
- Implemented modern UI design and optimized website performance.
